The best way to maintain your Guest Paging System

EasyCare allows restaurants to spread out extended warranty fees and lost replacement pager costs monthly. EasyCare is not an insurance policy but covers breakage caused by normal wear and tear. It does not cover power supplies, water damaged equipment or abused equipment. If your keypad or any other vital component (excluding pagers/coasters) fails, a new one will immediately be sent via FedEx or UPS. Systems older than 2 years have additional requirements. Please call customer service for more details.

EasyCare Advantages

- Managers don't have to constantly check inventory
Fixed monthly costs instead of one large payment
48 Hour replacement on vital items
Upgrade offers
New equipment savings
