

# Paging Without Boundaries

# NETPAGE UNLIMITED

Netpage Unlimited is the first network PC based paging solution that provides scalability and unlimited range to enhance and meet your company's instant communication needs. As your company expands and your needs increase, users and locations can easily be added to your Netpage Unlimited system. NetPage Unlimited grows as your company grows. LRS guarantees range coverage with flawless text messaging communication regardless of location. No need for repeaters to extend range.

**Ideal For:** Small to Large Organizations (including those with international offices)

**Range Capability:** Unlimited

**Users:** Supports up to 100,000 users (Netpage Unlimited ships with 5 user licenses. Additional user licenses can be purchased online.)

## System Benefits:

- IP/web browser based – No program installation required on users PC
- Instant and silent communication between staff
- Send messages directly from any networked PC
- Easy-to-use interface with the most advanced features
- Eliminate overhead paging
- Page individuals or groups
- Increase staff productivity
- Improve staff response time
- Reduce on-hold hang ups
- Efficient, quick, and reliable communication throughout your organization
- Reach staff or guests no matter where they are
- Multiple paging and alert modes using wireless messaging to pagers, cellular phones, and email

## Standard Features:

- **Global Groups** – page an administrator created group or department at once, these groups are available to every user
- **My Groups** – users may setup personal groups to page a group of up to 5 people
- **Global Alarms** – send an alert to an administrative defined group or department at once
- **My Alarms** – send a user-defined alert as a personal reminder
- **Paging Families** – maximizes efficiency by grouping one or more Transmit Controller(s) together for non-interfered transmission
- **On Premise/Off Premise Status Settings** – displays user status based on location whether inside or outside the building
- **Administrator Reporting** – System Administrator has access to all user logins, status, and messaging history
- **Receptionist Module** – update employee's on-premise or off-premise status
- **Auto On/Off** – the system can automatically turn pagers on and off at preset times each day to increase battery life by up to 50%
- **Quick Search** – locate employees from the directory quickly with predictive text
- Compatible with all LRS alphanumeric staff and guest pagers
- **Full scalability** – add local and global users as company expands
- **Telephone Interface (coming soon)** – allows users to page staff from any telephone
- **Push Button Alerts (coming soon)** – allow users or customers to page a staff member at the press of a button

## Optional Add-Ons\*:

- **Guest Waitlists** – allows the use of waitlists that can be shared by multiple users for guest paging. Users can add guests to waitlists, as well as, page guests
- **SMS Text Messaging** – automatically sends SMS text messages to users who are out of the office
- **Email Alert Messages** – Receive an email copy of your NetPage Unlimited messages

\*Additional fees may apply to Optional Add-Ons

### Transmit Controller - T74USB

- USB interface
- Dimensions 4" x 8" x 1"

Rechargeable SP5 (NiMH)

E467 Battery Operated (AAA)

### Staff Pagers

- 250 character scrollable display (E467)
- 80 character scrollable display (SP5)
- Auto off/on feature

### Guest Pagers

- 250 character display
- Anti-Theft feature

NetPage Unlimited Screen Shot

## USER ROLES

### Administrator

Responsible for all NetPage settings and permissions.

### Staff

This role has basic messaging capability and may only change settings for themselves.

### Receptionist

Includes messaging capability and the ability to access waitlists (waitlists are an optional add-on).

## Maximum Transmission – Paging Families

An Industry first - NetPage Unlimited is the first paging system to utilize "Paging Families". Paging Families are created and used to minimize interference and maximize transmission efficiency by grouping one or more Transmit Controllers together. When a message is sent, the NetPage Server tells each family when to transmit. This eliminates interference so that many Transmit Controllers can send pages simultaneously. The NetPage Server continuously monitors paging traffic and maximizes efficiency by transmitting to several employees at one time. This gives you the absolute fastest paging solutions possible.

## Local Paging, Global Possibilities

NetPage Unlimited is the most sophisticated local paging system in the world. Using Transmit Controllers, paging capabilities can be extended to provide increased range by eliminating dead spots. Simply connect a Transmit Controller wherever there is a dead spot. The result is a mini wide-area paging network, and various office locations (including global locations) can be connected as long as the company has a VPN (Virtual Private Network).

## No Installations Required

NetPage Unlimited is IP-based. Therefore, anyone in your organization can access it without installing programs on their PC.\* As an IP-based solution, NetPage is not confined to a PC, Mac or Linux-based computer or number of user limitations. (\*Drivers must be installed on PCs that have a Transmit Controller connected.)

## Field Upgradeable

As LRS continues to develop new features and solutions for Netpage, these upgrades will be easily added to your NetPage system providing you with unlimited access to the latest and greatest product features.

### Easy Installation

1. Install NetPage Server software on a selected PC
2. Install Transmitter Controller software on select PCs and connect the T74USB
3. Assign paging families
4. Add users and assign access levels
5. Set paging groups (i.e. Sales, Service, Accounting, etc.)
6. Issue LRS pagers to employees or guests

### Easy-to-Use:

1. Go to the NetPage designated website from any web browser
2. Enter user name and password at Login
3. Click on a name
4. Type in a message or choose a pre-programmed message or select a paging mode
5. Click "Send" and the message is sent instantly

## REQUIREMENTS & SPECS

<b>Server:</b>	Windows 98/ME/NT4/2000/XP i386 - Linux USB Connection TCP/IP Network Protocol
<b>Frequency:</b>	413-470Mhz operation
<b>Output Power:</b>	500mW
<b>Bandwidth:</b>	12.5kHz
<b>Modulation:</b>	FM
<b>Interface:</b>	USB (Transmit Controller only)

## EQUIPMENT

<b>T74USB:</b>	Requires 9-15VDC
<b>Staff Pagers:</b>	4-line alphanumeric (AAA battery operated) 1-line Alphanumeric (rechargeable)
<b>Guest Pagers:</b>	4-line alphanumeric text coaster pagers (Blue or Red lights) Non-alphanumeric pagers (Shapes: Coaster, lobster, pizza, AdverTeaser)
<b>Optional Equipment:</b>	Rooftop antenna for extended range

# Improve Productivity Through Wireless Technology

## Experience

Since 1993, LRS has been the leading supplier of on-site guest and staff paging and management systems by providing the most effective solutions and listening to the needs of our customers. Now, we offer newer products designed to increase sales, collect real-time guest marketing data and more.

## Innovation

LRS owns 20 patents and we provide over 30 products designed to help you streamline operations, improve service and increase sales every day.

We've developed and offer exclusive products and services no other company can. Products like:

### Networked Based Paging Systems

Our local paging system that provides unlimited range for both staff and guest paging with waitlists and multiple message types:

SMS Text Message • Onsite Pager • Email

NetPage Unlimited also features paging families for transmit controllers enabling quick, reliable and increased message throughput

## Quality

LRS is an engineering and manufacturing company. All of our products are designed and assembled by us. We closely control quality, and we design systems with features that are important to you.

### Durable and Rugged Pagers

They're made of extremely durable Lexan plastic to survive even the most rugged environments.

### Separate Pager Holsters

Instead of attached belt clips that break easily, our rechargeable pagers are carried in separate spring-loaded pager holsters. This eliminates broken belt clips as well as the need to return an entire pager for repair.

## Value

LRS has always been the leader in value-driven products. We guarantee the most features for the greatest value. Plus, when you factor in your increase in sales due to improved guest satisfaction and staff productivity, our systems are virtually priceless.

### 24/7 Customer Support

Our customer service department in Addison, Texas is available 24 hours a day, 7 days a week to answer any questions you may have — even on holidays!

### Warranties

We stand behind the quality of our products and provide a standard warranty. Extended and lifetime warranties are also available.
