

BETTER
COMMUNICATION
FOR BETTER BUSINESS

NETPAGE UNLIMITED

Better Communication = Better Business

LRS brings you Netpage Unlimited – the premier, browser-based, wireless communication solution that provides organizations of any industry and of any size with superior, scalable, and unlimited communication capabilities.

Your organization will be able to communicate via:

- Onsite Paging with unlimited range
- SMS Text messaging
- Email notifications

Optimized Transmission – Paging Families

An Industry first - NetPage Unlimited is the first paging system to utilize “Paging Families”. Paging Families minimize interference and maximize transmission efficiency by grouping one or more Transmit Controllers together. When a message is sent, the NetPage Server tells each family when to transmit. This eliminates interference so that many Transmit Controllers can send pages simultaneously. The NetPage Server continuously monitors paging traffic and maximizes efficiency by transmitting to several employees at one time. This gives you the absolute fastest paging solutions possible.

Local Paging, Global Possibilities

NetPage Unlimited is the most sophisticated local paging system in the world. Using Transmit Controllers, paging capabilities can be extended to provide increased range by eliminating dead spots. Simply connect a Transmit Controller wherever there is a dead spot. The result is a mini wide-area paging network, and various office locations (including global locations) can be connected as long as the company has a VPN (Virtual Private Network).

Created for :

- Hospitals
- Manufacturing Facilities
- Warehouses
- Distribution Centers
- Hotels
- Schools and Universities
- Churches
- Sporting Arenas
- Convention Centers
- Medical Offices
- Airports
- Retail
- Auto Dealerships

No Installation Required

NetPage Unlimited runs in a standard web browser. Therefore, anyone in your organization can access it without installing software on their PC.* As an IP-based solution, NetPage is not confined to a PC, Mac or Linux-based computer. The number of users is virtually unlimited as well.

*Drivers must be installed on PCs that have a Transmit Controller connected.

Free Field Upgrades

As LRS develops new features and solutions for Netpage Unlimited, software upgrades are easily made to your NetPage system providing you with unlimited access to the latest and greatest product features.

BENEFITS & FEATURES

BENEFITS:

- **Improve staff response time**
- **Reduce on-hold hang ups**
- **Simple implementation - browser based – No program installation required on users' PCs**
- **Instant and silent communication between staff members**
- **Minimal training - Intuitive & easy-to-use interface**
- **Eliminate overhead paging**
- **Increase staff productivity**
- **Reach staff or guests virtually anywhere**
- **Multiple notification methods using LRS pagers, cell phones, and email**

STANDARD FEATURES:

- **Global Groups** – an administrator created group or department, these groups are available to every user
- **My Groups** – a user-created group that can page up to 5 people simultaneously
- **Global Alarms** – an automated alert created by an administrator for every user or specific groups (can be sent to more than 5 people)
- **My Alarms** – send a user-defined alert as a personal reminder
- **Paging Families** – maximizes efficiency by grouping one or more Transmit Controller(s) together for non-interfered transmission
- **On Premise/Off Premise Status Settings** – displays user status based on location whether inside or outside the building
- **Receptionist Module** – update employee's on-premise or off-premise status
- **Auto On/Off** – the system can automatically turn pagers on and off at preset times each day to increase battery life by up to 50%
- **Quick Search** – locate employees from the directory quickly with predictive text
- **Compatibility** – works with all LRS staff & guest pagers as well as cell phones
- **Scalability** – add local and global users as company expands
- **Email Alert Messages** – Receive an email copy of your NetPage Unlimited messages
- **Telephone Interface (coming soon)** – allows users to page staff from any telephone
- **Push Button Alerts (coming soon)** – allow users or customers to page a staff member at the press of a button

Optional Add-Ons*:

- **Guest Waitlists** – allows the use of waitlists that can be shared by multiple users for guest paging. Users can add guests to waitlists, as well as, page guests with custom messages
- **SMS Text Messaging** – automatically sends SMS text messages to users who are out of the office

*Additional fees may apply to Optional Add-Ons

STAFF COMMUNICATION

- Notifies staff immediately from your web browser
- Improves Response Time
- Minimizes startup costs by utilizing personal cell phones (SMS text messaging)
- Increases Efficiency & Productivity
- Eliminates Overhead PA System
- Improved Communication in Noisy Environments
- Reduces On-hold Hangups

How it Works

- 1 Click on a group or name
- 2 Type in a message or choose a preset message
- 3 Click "Send"

The screenshot displays the LRS NetPage Unlimited web interface. At the top, there are navigation tabs for Paging, Users, and Configuration. Below these are sub-tabs for Page Staff, My Profile, Stored Msg, and Logout. The main content area is divided into several sections:

- Welcome:** Doug Berryhill, doug (101). Sms balance: 100.
- Messages Received:** A list of received messages, including "PLEASE COME TO THE SALES OFFICE, Shannon Brown (112), 7/12/10 4:50 PM".
- Messages Sent:** A list of sent messages, including "WAITING, CD Drumm (103), 7/12/10 8:10 PM" and "PLEASE COME TO THE SALES OFFICE, Doug Collett (109), 7/12/10 4:51 PM".
- Staff Paging:** A section for sending messages to staff. It includes a "Pager Number / Name" field, a "Message" field, and "Send" and "Clear" buttons. A "Search" button is also present.
- Staff List:** A table listing staff members and their messages. The table has two columns: "Group/User Name" and "Message".

Group/User Name	Message
All Page	Call 128 Please
Alan Matthews (121)	PRE-OWNED SALES CALL 224
Andy Lamon (118)	NEW CAR SALES CALL 226
Brad Jernigan (107)	LETS START LOCKING CARS
CD Drumm (103)	PLEASE COME TO THE SALES OFFICE
Chris Foss (110)	YOU HAVE OVERDUE TASKS
Curtis Dorman (116)	YOU HAVE GUEST ON SHOWROOM
Dale Fieker (111)	FRANK IS HERE
Don Luman (108)	
Doug Berryhill (101)	
Doug Collett (109)	
Ed Eskridge (113)	
Holger Brochvogel (102)	
Justin Pence (117)

Staff Communication Screen Shot

GUEST COMMUNICATION : **Standard Waitlist**

- **Notify Guests Immediately**
- **Cost effective - utilizes existing LAN**
- **Eliminates multiple department check-ins**
- **Reduce pager loss and maintenance by utilizing guests cell phone**
- **Eliminate disruptive overhead PA system**
- **Guests know where to go with unique messaging for each department**

Easy To Use:

- 1** Click Handout to add a guest to the waitlist
- 2** Enter guest's name and cell phone or LRS pager number
- 3** To notify a guest, click on their name and click send

The screenshot displays the LRS NetPage Unlimited web interface. The browser address bar shows <http://demo.pager.net:8080/mainGuest.htm?clear=1>. The interface includes a navigation menu with options like Paging, Users, Configuration, System, Page Staff, My Profile, Stored Msg, Settings, and Logout. The main content area features a 'Guest Paging' section with a 'Handout' button (marked with a red circle 1) and a table of pagers. The table has columns for Name, Pager Number, Time In, Appointment Time, Tag #, Wait Time, and Model. A 'Details' popup (marked with a red circle 2) is shown for a pager, displaying fields for Name, Pager Number, Time In, and Est. Wait Time. A red circle 3 is placed over a pager entry in the table.

Name	Pager Number	Time In	Appointment Time	Tag #	Wait Time	Model
Kelley	204	11:19 AM	4:45 PM	JKL 789	3	ISF 10
Jeff	205	11:05 AM	4:30 PM	JKL 789	3	ISF 10
Jason	208	10:55 AM	4:20 PM	JKL 789	3	ISF 10
John	201	10:11 AM	11:22 AM	H24 687	70	LX 10
Bob	299	10:08 AM	11:21 AM	ZXO 564	72	LS Hybrid
Adam	+469-714-3121	10:08 AM	10:13 AM	GRX 123	74	GS Hybrid

Handout Screen

Standard Waitlist Screen Shot

GUEST COMMUNICATION : Enhanced Waitlist

A Paging History

Easily view guests who have been paged along with pertinent data regarding that guest.

B Multiple Waitlists

Easily view and manage multiple waitlists for different departments or groups from one screen

C Customized List Header

The enhanced waitlist enables organizations to fully customize wait list columns. Be as simple or detailed as you need.

Current waitlist: Admissions **Handout** **Refresh** **Page All**

Name	Pager Number	Reason For Visit	Doctor	Time In	Paged Time
Mike Hanes	108	Physical	Dr. Jones	9:48 AM	10:01 AM

Enhanced Waitlist Screen Shot

Available Enhanced Waitlist Field Types

- **E-mail** ~ requires a valid e-mail address to be entered
- **Handout Time** ~ displays the time the pager was handed out
- **Paged Time** ~ displays the time the pager was paged
- **Wait time** ~ keeps a running time of how long a name has been on the waitlist until the pager or cell phone is called
- **Estimated Wait Time** ~ adds a predetermined amount of time for each name added – does not allow the user to manually key in the estimated wait time
- **Manual Estimated Wait Time** ~ allows the user to manually key in the estimated wait time
- **Overdraw Time** ~ displays the time a name has been on the list beyond the estimated wait time
- **Pager Number** ~ displays the pager or cell phone number entered at handout
- **Waitlist group pager number** ~ displays the group number of the particular waitlist (text only)
- **Handed Out By** ~ displays which user added a name to the waitlist
- **Name** ~ the name of the individual(s) as they will appear on the waitlist
- **Text box** ~ free form text box (designed for entering small text verbiage like reason for visit, Dr. Name, etc.)
- **Text area** ~ free-form text box (designed for entering large text verbiage like notes, special instructions, etc.)
- **Integer** ~ a number only field in which the user can dictate a range of acceptable numbers (i.e 1-25)
- **Multi-Selection Drop Down** ~ fully customizable drop down menu
- **Order Number** ~ assigns a number to each name that automatically increases with each name added to the waitlist
- **Yes/No** ~ a field that displays yes or no for the given column header

GUEST COMMUNICATION : Self Check-In Kiosk

1

Welcome Screen

This is the screen customers see as they approach the kiosk. It may be customized to reflect your brand.

2

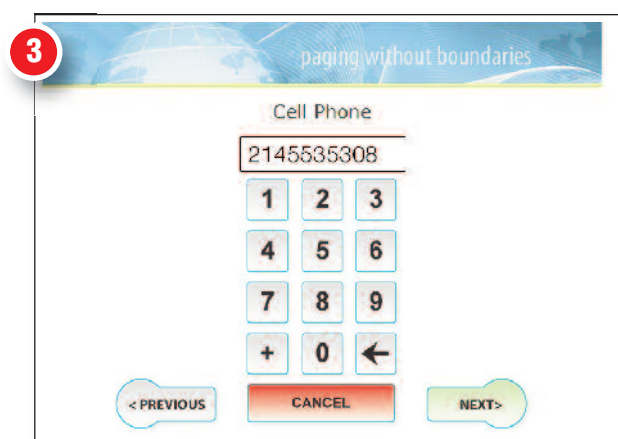

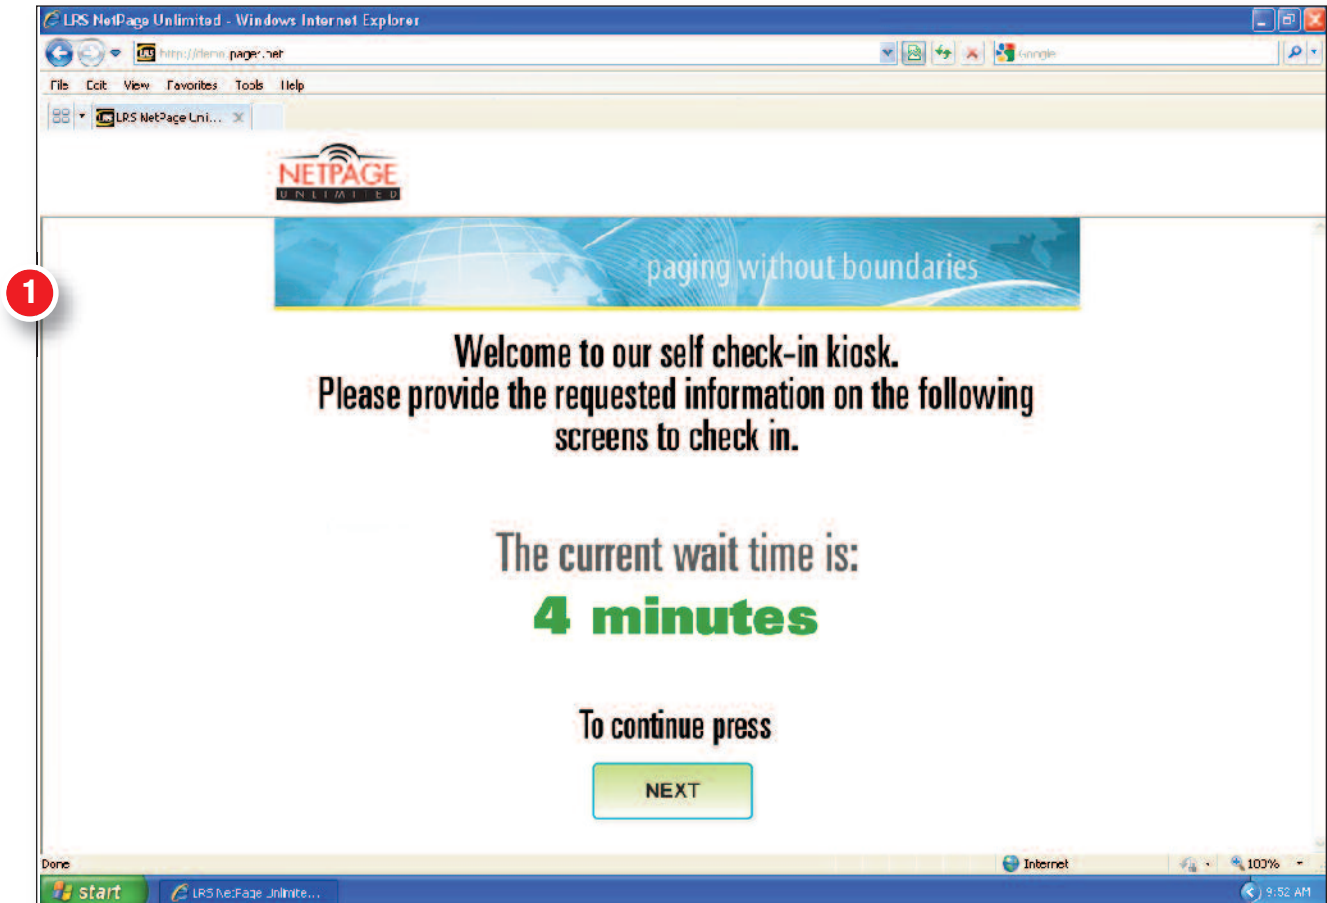

Name Entry

To begin the check-in process, customers enter their name using the touch screen keyboard.

3

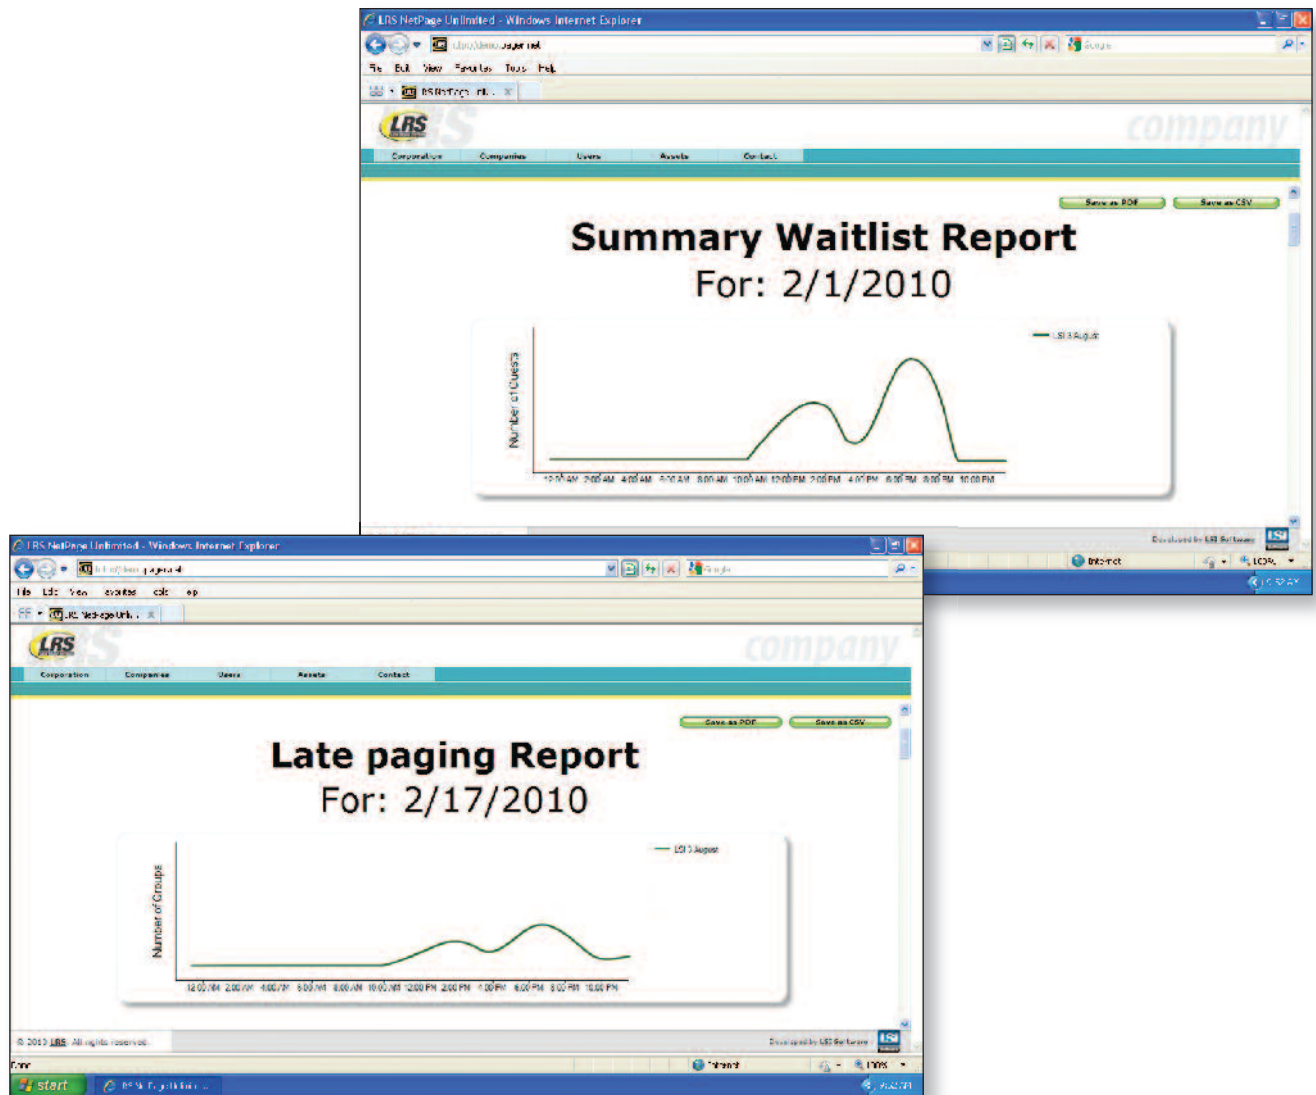

Cell Number Entry

Continuing the check-in process, customers enter their cell phone number

REPORTS : **Standard**

- **Measure Average Wait times for each department**
- **Measure Late Pages**
- **Access Data Anytime**
- **Identify Trends of slow and peak times for scheduling**

REPORTS : **Custom**

Reports may be customized to show data collected from any field type.

EQUIPMENT

NetPage Unlimited Requires 4 components:

- 1. NetPage Server Software** (installed on a single networked PC)
- 2. Transmit controllers** - Connected to networked PCs and placed strategically throughout the facility where pager messages must be received
- 3. Pagers** - Pagers are issued to staff or guests who must be notified
- 4. User Licenses** - User licenses are required for:
 - A. Any employee who will have a staff pager
 - B. Any employee who will not have a pager but needs to send messages through Netpage Unlimited
 - C. Any person who needs to access a waitlist

RT1202 Transceiver

- Receives Zigbee protocol
- Transmits UHF paging signal
- Requires LAN connection
- No PC required
- Requires standard 110V outlet

Transmit Controller - T74USB

- USB interface
- Transmits UHF paging signal
- PC required
- Requires standard 110V outlet
- Dimensions: 4" x 8" x 1"

Rechargeable SP5 (NiMH) E467 Battery Operated (AAA)

Staff Pagers

- 250 character scrollable display (E467)
- 80 character scrollable display (SP5)
- Multiple vibration and tone alerts
- Auto off/on feature

Guest Pagers

- 250 character display
- Alpha & Non-Alpha pagers available
- Compact, rugged design
- Multiple flash and vibrate alerts
- Anti-Theft feature

Easy Installation

1. Install NetPage Server software on a selected PC
2. Install Transmitter Controller software on select PCs and connect the T74USB(s) depending on range requirements
3. For larger facilities, strategically assign transmitter families
4. Add users and assign access levels
5. Create paging groups (i.e. Sales, Service, Accounting, etc.)
6. Issue LRS pagers to staff

REQUIREMENTS

Server Requirements: Windows 98/ME/NT4/2000/XP
i386 - Linux
USB Connection
TCP/IP Network Protocol

User Requirements: - PC or Mac with network connection
- One of the following web browsers
Mozilla Firefox versions 3.0 or 3.5 or
MS Internet Explorer 7 or 8

SPECS

Frequency: 413-470Mhz operation

Output Power: 500mW

Bandwidth: 12.5kHz

Modulation: FM

Interface: USB (Transmit Controller only)

ARCHITECTURE

Standard Installation

A Transmit Controllers

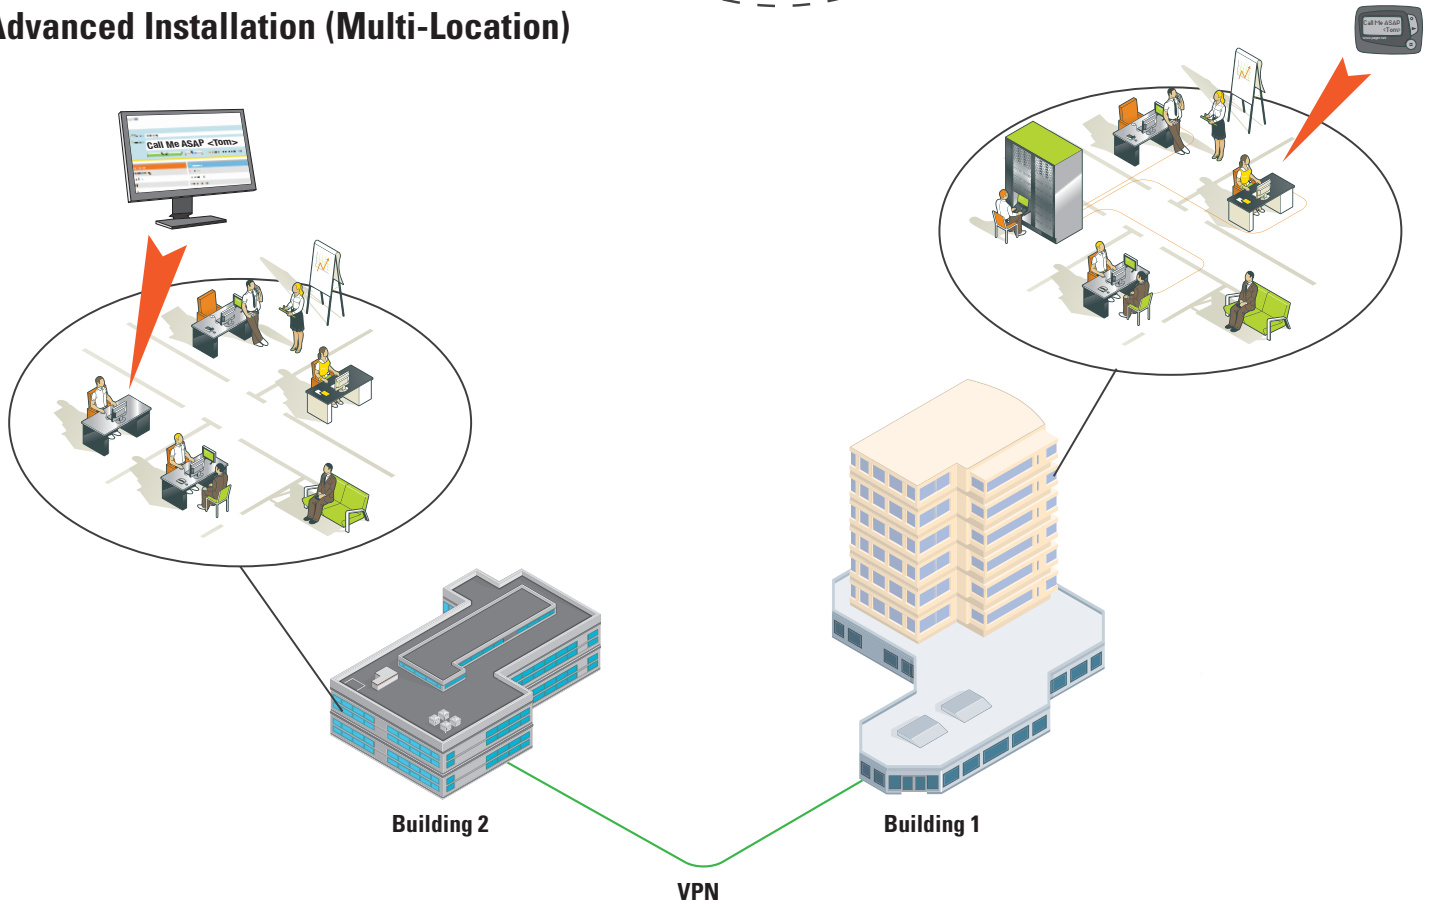

These are transmitters that must be connected to the same network as the NetPage Unlimited Server

B NetPage Unlimited Server

This can be any PC connected to the Local Area Network (LAN)

Advanced Installation (Multi-Location)

Improve Productivity Through Wireless Technology

Experience

Since 1993, LRS has been the leading supplier of on-site guest and staff paging and management systems by providing the most effective solutions and listening to the needs of our customers. Now, we offer newer products designed to increase sales, collect real-time guest marketing data and more.

Innovation

LRS owns 20 patents and we provide over 30 products designed to help you streamline operations, improve service and increase sales every day.

We've developed and offer exclusive products and services no other company can. Products like:

Networked Based Paging Systems

Our local paging system that provides unlimited range for both staff and guest paging with waitlists and multiple message types:

SMS Text Message • Onsite Pager • Email

NetPage Unlimited also features paging families for transmit controllers enabling quick, reliable and increased message throughput

Quality

LRS is an engineering and manufacturing company. All of our products are designed and assembled by us. We closely control quality, and we design systems with features that are important to you.

Durable and Rugged Pagers

They're made of extremely durable Lexan plastic to survive even the most rugged environments.

Separate Pager Holsters

Instead of attached belt clips that break easily, our rechargeable pagers are carried in separate spring-loaded pager holsters. This eliminates broken belt clips as well as the need to return an entire pager for repair.

Value

LRS has always been the leader in value-driven products. We guarantee the most features for the greatest value. Plus, when you factor in your increase in sales due to improved guest satisfaction and staff productivity, our systems are virtually priceless.

24/7 Customer Support

Our customer service department in Addison, Texas is available 24 hours a day, 7 days a week to answer any questions you may have — even on holidays!

Warranties

We stand behind the quality of our products and provide a standard warranty. Extended and lifetime warranties are also available.
